SUPER SUMMER

Enrichment programs for gifted and talented youth

Kindergarten—4th Grade
SUMMER 2015
Super Summer is a program where bright kids in kindergarten (K) through fourth grade come to enjoy challenging courses with other academically, creatively, and artistically talented youth. Day-long, interdisciplinary courses are geared at least two grade levels above each student’s current school grade.

Students will attend a full-day program of challenging, hands-on activities related to a central theme. Components from all disciplines will be included at every level, so each child will gain experience in engineering, math, science, social studies, art, and language arts, while working on open-ended activities that require critical and creative thinking.

High-ability children think big thoughts. They make connections across disciplines and work to understand how ideas and concepts are related to each other. Rather than exploring just one topic, such as chemistry, the students will learn how chemistry plays a role in real life. They will explore such questions as: What chemical reactions occur in our ecosystem? Are they helpful or harmful?

We look forward to seeing you this summer. Just bring a lunch, snacks, and your enthusiasm for learning with you!
WHAT MAKES SUPER SUMMER SUPER?

• **Small Classes:** Class sizes are limited to 12 students at the kindergarten grade levels, 15 students at the 1st and 2nd grade levels, and 18 students at the 3rd and 4th grade levels, to enable our instructors to work effectively with each student.

• **High-Quality Teachers:** Our caring teachers are knowledgeable and enthusiastic about working with GERI students. They receive professional training and ongoing support from the GERI team to meet the special needs of high-ability children and to ensure that students get personalized attention.

• **Challenge:** Classes provide authentic, hands-on learning experiences that encourage creative thinking, problem solving, and exploration of student interests in an environment that values creativity, diversity, and achievement.

• **Enjoyment**: Students enjoy learning interesting content in an interactive environment. The Super Summer program provides high-ability students an enjoyable setting in which they can connect with other bright students who share their enthusiasm for learning.

• **Community of Talents:** Students work with counselors to understand and appreciate their strengths and the strengths of others. Collaboration, communication, and thinking skills are emphasized using simulations and scenarios.

WHEN:
Two, one-week sessions are offered.

Session 1:
June 8-12 from 8 a.m. to 5 p.m.

Session 2:
June 15-19 from 8 a.m. to 5 p.m.

SCHEDULE:
A detailed program schedule will be included in the information packet provided after registration.

WHERE:
We are pleased to announce that the program will be held on the Purdue University campus in West Lafayette. Detailed classroom assignments will be included in the information packet provided after registration.

FOR ANY ENQUIRIES:
For any enquiries, please contact our Super Summer coordinator, Juliana Tay, at (765) 494-7240 or jtay@purdue.edu. For more details, please visit our website: http://geri.education.purdue.edu/youth_programs/SSUM/index.html
KINDERGARTEN: DISCOVERY THROUGH EXPERIMENTATION
Do shadows move? How does wind erosion happen? Discover the answers to these questions and more as you gather common household items, building materials, and icky, gooey things. Create mind-blowing kid-tested science experiments. The possibilities for scientific discovery are endless!

KINDERGARTEN: DISCOVERY THROUGH ENGINEERING
What can bubbles do? Are there things bubbles cannot do? How can you make a bubble land without popping? Uncover the secrets of bubbles through experimenting with many different materials that can be used to make bubble wands. Become a materials engineer as you consider which materials are best for making different kinds of bubbles, and which combination of materials you will use to create their own unique bubble wands. (Priority given to students who have joined Super Summer in 2013)

GRADES 1 - 2: DISCOVERY THROUGH HISTORY
How do the historic discoveries made by ancient civilizations affect our modern world? Examine how the contributions of the ancient Egyptian, Mayan, Roman, and Chinese empires in art, literature, and science have influenced modern civilization. You will also consider scenarios and solve complex mathematical and engineering tasks as you put yourself in the role of ruler of your own empire. Use your imagination as you design and build your own working society.

GRADES 3 - 4: DISCOVERY THROUGH VETERINARY MEDICINE
Have you ever considered that humans and animals have similar basic needs? Have you wondered how your pets view the surrounding world from their perspectives? Discover your inner veterinarian! Learn all about animal anatomy, physiology, and nutrition with dissection and other exciting hands-on and minds-on activities. Explore the veterinary needs of animals of all shapes and sizes!
**KINDERGARTEN: HOP-TO-IT**

What is an invasive species and what can we do to protect an ecosystem? A world-traveling brother and sister duo, India and Jacob, present the problem of invasive cane toads. Act as a mechanical engineer while designing a trap to catch a cane toad. In this problem-solving unit, you will explore the idea that, as engineers, you can design and improve technology!

**KINDERGARTEN: WHEN A PLUS B EQUALS C**

Did you know that kindergarteners can have fun with algebra? The world around us is filled with mathematics. For example, did you know that when you are making a hamburger you are creating a linear equation? Utilize a hands-on approach to learn about algebraic thinking and understand fundamental algebraic concepts. Become an artisan as you explore the world of mathematics in a creative and fun way. *(Priority given to students who have joined Super Summer in 2013)*

**GRADES 1 - 2: NATURE’S PUZZLE**

What is the relationship among topography, biology, chemistry, and ecology? What chemical reactions influence the environment? Gather evidence, analyze data, and interpret findings as you research and explore concepts of the physical environment, ecosystems, human ecology, and biodiversity. Examine interactions between geography and meteorology, the impact of common household compounds and the environment, and the effects of pollution on humans and animals.

**GRADES 3 - 4: THINK LIKE AN ECOLOGIST — OUR EARTH, OUR RESPONSIBILITY**

The choices that people make every day have an effect on the world in which we live. Analyze how human populations affect Earth’s natural resources. Through a variety of hands-on activities, consider how human behaviors, collective and individual, conscious and unconscious, have both positive and negative effects on our planet. Look at issues on both local and global scales in order to develop ideas and solutions to the problems we face and become an advocate for change in the world around you.
WHO IS ELIGIBLE
Super Summer courses are designed for motivated, high-ability students, in kindergarten through fourth grade. The pace and level of these courses are appropriate for students in the top ten percent of the population in a given program area.

ONLINE REGISTRATION
Register online at:
www.conf.purdue.edu/ssum2015
• Credit card payment is required when registering online.
• Choose a session, or sessions, at the proper grade level for which the child is eligible.
• Log on to the system with the child’s name. You will be prompted later to enter the parent or guardian’s name in the payment information.
• Child should enroll in the grade level completed this school year.

OTHER OPTIONS
By mail: GERI Super Summer
Purdue University Conferences
Stewart Center, Room 110
128 Memorial Mall
West Lafayette, IN 47907-2034
You will receive a confirmation notice when your registration materials are received by Purdue Conferences.
• Credit card payment is required when registering online.
• By phone: (765) 494-2758 or (800) 359-2968
• By fax: (765) 494-0567

COMING FROM OUT OF TOWN?
Our guests from out of town are invited to stay at one of our local hotels. Contact the hotels directly for reservations.

ACCESSIBILITY
Purdue is committed to ensuring programs are accessible to individuals with disabilities. If your child requires an accommodation or special assistance due to a disability, contact Purdue Conferences at (765) 494-2758 at least one week prior to the start of the program.
FEES & PAYMENT

FEES
• One week, full-day program: $240 per child
• Both weeks, full-day program: $440 per child
• Family rate, two or more children from the same family: $220 per child, per week

PAYMENT
Checks should be made payable to Purdue University. If registering online, fees may be charged to Discover, VISA, American Express, or MasterCard.

An introductory packet will be mailed to you the week prior to the start of the program. If you do not receive notice at least three days prior to your child’s first class, call our office, (765) 494-7240.

FINANCIAL AID
A limited number of need-based scholarships for full tuition are available. To apply, complete and return the financial aid form (located on page 9) with your child’s application.

REFUND AND WITHDRAWAL POLICY
A full refund will be granted if a request is received in writing by May 18. A $50 refund will be given between May 19 and June 8. No refunds will be granted after June 8.
STUDENT INFORMATION

Name: ___________________________ Birth Date: ___________________________

Address: ___________________________

City: __________________ State: ___ ZIP: _______

School: __________________ Corporation: __________________

Race/Ethnicity (optional/check all that apply):
□ African American/Non-Hispanic □ Hispanic □ Other
□ Asian □ Multi-racial □ Pacific Islander
□ Caucasian, Non-Hispanic □ Native American/Alaskan Native □ Choose not to answer

Ethnicity and gender data are used for research and evaluation purposes only and do not affect eligibility.

Parent/Legal Guardian Name: ___________________________

Home Phone: __________________ Work Phone: ___________ Cell Phone: ___________

E-mail Address: __________________

This will be my child’s first Super Summer session: □ Yes □ No

Purdue is committed to making its programs accessible to individuals with disabilities. If you require an accommodation or special assistance for this program due to a disability, please contact us at (765) 494-7243.

PHOTO RELEASE

□ I do not give consent for any photograph or video image of my child taken during a GERI program to be used by Purdue University for publicity and educational purposes.

MEDICAL INFORMATION (must be completed)

List any information regarding your child’s health, allergies, physical, and/or emotional status in order for us to best serve your child’s needs. Attach additional sheets if necessary.

EMERGENCY CONTACT (in the event parent/guardian cannot be reached)

or fax your with credit card information to: (765) 494-0567

Register online at www.conf.purdue.edu/ssum2015
FINANCIAL AID

A limited number of full financial aid grants are available for students who would not be able to attend the program without financial assistance. To be considered for financial assistance, please complete this form and submit it with the Super Summer application. If you have questions about eligibility, please contact Juliana Tay at (765) 494-7240.

Student’s name: ____________________________________________________________

For school-aged children:
☐ I have attached verification on official school letterhead that my child is eligible for free lunch.

☐ I have attached verification on official school letterhead that my child is eligible for reduced lunch.

For kindergarten or homeschooled children:
☐ I have attached documentation to verify that my child is eligible for federal financial assistance.

PARENT’S EDUCATIONAL BACKGROUND

Parent 1
☐ Some high school
☐ High school diploma
☐ Some college
☐ Bachelor’s degree
☐ Master’s degree
☐ Ph.D. / professional degree

Parent 2
☐ Some high school
☐ High school diploma
☐ Some college
☐ Bachelor’s degree
☐ Master’s degree
☐ Ph.D. / professional degree
